2. The provisions of paragraph 1 regarding national treatment shall mean, with respect to a province, treatment no less favourable than the most favourable treatment accorded by such province to any like, directly competitive or substitutable goods, as the case may be, of the Party of which it forms a part. [FOOTNOTE: "Goods of a Party" includes goods produced in the province of that Party.]

3. Paragraphs 1 and 2 do not apply to the measures set out in Annex III.2 (Exceptions to Articles III.2 and III.7).

Section II Tariffs

Article III.3

Tariff Elimination

[FOOTNOTE: For the purpose of Article III.3, a good may refer to an originating good or a good which benefits from tariff elimination under a TPL.]

1. Except as otherwise provided in this Agreement, neither Party may increase any existing customs duty, or adopt any customs duty, on a good. [FOOTNOTE: this paragraph is not intended to prevent either Party from modifying its tariffs outside this Agreement on goods for which no tariff preference is claimed under this Agreement. This paragraph does not prevent either Party from raising a tariff back to an agreed level in accordance with the phase-out schedule in this Agreement following a unilateral reduction. END FOOTNOTE]

2. Except as otherwise provided in this Agreement, each Party shall progressively eliminate its customs duties on goods in accordance with its Schedule to Annex III.3.1 (Tariff Elimination) [FOOTNOTE: Paragraphs 1 and 2 of this Article are not intended to prevent either Party from maintaining or increasing a customs duty as may be authorized by any dispute settlement provision of the WTO Agreement or any agreement under the WTO Agreement. END FOOTNOTE] and Annex III.3.2 (Special Safeguards).

3. During the tariff elimination process, the Parties agree to apply to originating goods traded between them, the lesser of the customs duties resulting from a comparison between the rate established in accordance with the Tariff Elimination Schedule, and the existing rate pursuant to Article II of GATT 1994.

4. On the request of a Party, the Parties shall consult to consider accelerating the elimination of customs duties set out in their Schedules or incorporating into one Party's Tariff Elimination Schedule goods that are not subject to the elimination schedule. An agreement between the Parties to accelerate the elimination of a customs duty on a good or to include a good in the Tariff Elimination Schedule shall supersede any duty rate or staging category determined pursuant to their Schedules for such good when approved by each such Party in accordance with its applicable legal procedures.

5. Except as otherwise provided in this Agreement, either Party may adopt or maintain import measures to allocate in-quota imports made pursuant to a tariff rate quota set out in Annex

III.3.1 (Tariff Elimination), provided that such measures do not have trade restrictive effects on imports additional to those caused by the imposition of the tariff rate quota.

6. On written request of either Party, a Party applying or intending to apply measures pursuant to paragraph 5 shall consult to review the administration of those measures.

Article III.4

Temporary Admission of Goods

(c) goods imported for sports purposes and goods intended for display or demonstration; and

(d) commercial samples and advertising films;

imported from the territory of the other Party, regardless of their origin and regardless of whether like, directly competitive or substitutable goods are available in the territory of the Party.

2. Except as otherwise provided in this Agreement, neither Party may condition the duty-free temporary admission of a good referred to in paragraph 1(a), (b) or (c), other than to require that such good:

(a) be imported by a national or resident of the other Party who seeks temporary entry;

(b) be used solely by or under the personal supervision of such person in the exercise of the business activity, trade or profession of that person;

(c) not be sold or leased while in its territory;

Where a Party uses a non-monetary form of security, it shall not be more burdensome than existing forms of security used by that Party. END FOOTNOTE]

(e) be capable of identification when exported;

(f) be exported on the departure of that person or within such other period of time as is reasonably related to the purpose of the temporary admission; and

(g) be imported in no greater quantity than is reasonable for its intended use.

3. Except as otherwise provided in this Agreement, neither Party may condition the duty-free temporary admission of a good referred to in paragraph 1(d), other than to require that such good:

(a) be imported solely for the solicitation of orders for goods, or services provided from the territory, of the other Party or a non-Party;

(b) not be sold, leased or put to any use other than exhibition or demonstration while in its territory;

(c) be capable of identification when exported;

- (d) be exported within such period as is reasonably related to the purpose of the temporary admission; and
- (e) be imported in no greater quantity than is reasonable for its intended use.

- (a) the customs duty and any other charge that would be owed on entry or final importation of the good; and
- (b) any applicable criminal, civil or administrative penalties that the circumstances may warrant.

5. Neither Party:

- (a) shall prevent a vehicle or container used in international traffic that enters its territory from the territory of the other Party to exit its territory on any route that is reasonably related to the economic and prompt departure of such vehicle or container;
- (b) may require any bond or impose any penalty or charge solely by reason of any difference between the port of entry and the port of departure of a vehicle or container;
- (c) may condition the release of any obligation, including any bond, that it imposes in respect of the entry of a vehicle or container into its territory on its exit through any particular port of departure; and
- (d) may require that the vehicle or carrier bringing a container from the territory of the other Party into its territory be the same vehicle or carrier that takes such container to the territory of the other Party.

Article III.5

Duty-Free Entry of Certain Commercial Samples and Printed Advertising Materials

Each Party shall grant duty-free entry to commercial samples of negligible value, and to printed advertising materials, imported from the territory of the other Party, regardless of their origin, but may require that:

- (a) such samples be imported solely for the solicitation of orders for goods, or services provided from the territory, of the other Party or a non-Party; or
- (b) such advertising materials be imported in packets that each contain no more than one copy of each such material and that neither such materials nor packets form part of a larger consignment.

Article III.6

Goods Re-Entered after Repair or Alteration

1. Neither Party may apply a customs duty to a good, regardless of its origin, that re-enters its territory after that good has been exported from its territory to the territory of the other Party for repair or alteration, regardless of whether such repair or alteration could be performed in its territory. [FOOTNOTE: This paragraph does not cover goods imported in bond, into foreign trade zones, or in similar status, that are exported for repair and are not re-imported in bond, into foreign trade zones, or in similar status.]

2. Neither Party may apply a customs duty to a good, regardless of its origin, imported temporarily from the territory of the other Party for repair or alteration.

Section III Non-Tariff Measures

Article III.7 Import and Export Restrictions

1. Except as otherwise provided in this Agreement, neither Party may adopt or maintain any prohibition or restriction on the importation of any good of the other Party or on the exportation or sale for export of any good destined for the territory of the other Party, except in accordance with Article XI of the GATT 1994, including its interpretative notes, and to this end Article XI of the GATT 1994 and its interpretative notes, or any equivalent provision of a successor agreement to which both Parties are party, are incorporated into and made a part of this Agreement.

2. The Parties understand that the GATT 1994 rights and obligations incorporated by paragraph 1 prohibit, in any circumstances in which any other form of restriction is prohibited, export price requirements and, except as permitted in enforcement of countervailing and antidumping orders and undertakings, import price requirements.

3. In the event that a Party adopts or maintains a prohibition or restriction on the importation from or exportation to a non-Party of a good, nothing in this Agreement shall be construed to prevent the Party from:

- (a) limiting or prohibiting the importation from the territory of the other Party of such good of that non-Party; or
- (b) requiring as a condition of export of such good of the Party to the territory of the other Party, that the good not be re-exported to the non-Party, directly or indirectly, without being consumed in the territory of the other Party.

4. In the event that a Party adopts or maintains a prohibition or restriction on the importation of a good from a non-Party, the Parties, on request of the other Party, shall consult with a view to avoiding undue interference with or distortion of pricing, marketing and distribution arrangements in the other Party.

5. Paragraphs 1 through 4 shall not apply to the measures set out in Annex III.2 (Exceptions to Articles III.2 and III.7).

Article III.8 Wine and Distilled Spirits

1. Neither Party may adopt or maintain any measure requiring that distilled spirits imported from the territory of the other Party for bottling be blended with any distilled spirits of the Party.

2. Annex III.8 (Wine and Distilled Spirits) applies to other measures relating to wine and distilled spirits.

Article III.9
Geographical Indications

The Parties shall protect the geographical indications for their products according to their rights and obligations set out in the Agreement on Trade Related Intellectual Property Rights, Annex 1C of the WTO Agreement, and any successor agreement to which both Parties are party.

Article III.10
Export Taxes

Subject to the provisions in Annex III.10 (Export Taxes), neither Party may adopt or maintain any duty, tax or other charge on the export of any good to the territory of the other Party, unless such duty, tax or charge is adopted or maintained on any such good when destined for domestic consumption.

Article III.11
Other Export Measures

1. Except as set out in Annex III.2 (Exceptions to Articles III.2 and III.7), a Party may adopt or maintain a restriction otherwise justified under Articles XI.2 (a) or XX (g), (i) or (j) of the GATT 1994 with respect to the export of a good of the Party to the territory of the other Party, only if:

(a) the restriction does not reduce the proportion of the total export shipments of the specific good made available to the other Party relative to the total supply of that good of the Party maintaining the restriction as compared to the proportion prevailing in the most recent 36-month period for which data are available prior to the imposition of the measure, or in such other representative period on which the Parties may agree;

(b) the Party does not impose a higher price for exports of a good to the other Party than the price charged for such good when consumed domestically, by means of any measure, such as licenses, fees, taxation and minimum price requirements. The foregoing provision does not apply to a higher price that may result from a measure taken pursuant to subparagraph (a) that only restricts the volume of exports; and

(c) the restriction does not require the disruption of normal channels of supply to the other Party or normal proportions among specific goods or categories of goods supplied to the other Party.

2. The Parties shall cooperate in the maintenance and development of effective controls on the export of each other's goods to a non-Party in implementing this Article.

Article III.12

2. Notwithstanding any other provisions of this Agreement, the Parties agree to eliminate, as of the date of entry into force of this Agreement, any form of export subsidy for agricultural

goods destined for the other Party, and to prevent the reintroduction of such subsidies in any form.

Article III.13

Domestic Support for Agricultural Goods

1. The Parties recognize that domestic support measures can be of crucial importance to their agricultural sectors but may also have distorting effects on the production and trade of agricultural goods.

2. The Parties agree to cooperate in the WTO negotiations on agriculture to achieve:

- (a) the maximum possible reduction or elimination of production and trade-distorting domestic support, including support under "production limiting" or "blue box" programs;
- (b) an overall limit on the amount of domestic support of all types ("green", "blue" and "amber");
- (c) a review of the criteria for the "green box" category to ensure that "green" support does not distort production and trade; and
- (d) agreement that "green box" support should not be countervailable.

3. Pending the elimination of trade-distorting domestic support measures, if either Party maintains such a measure which the other Party considers to be distortive of bilateral trade under this Agreement, the Party applying the measure shall, at the request of the other Party, consult with a view to making a best efforts endeavour to avoid nullification or impairment of concessions granted under this Agreement.

7. Nothing in this Chapter shall be construed to prevent a Party from issuing a determination of origin or an advance ruling relating to a matter under consideration by the Committee or from taking such other action as it considers necessary, pending a resolution of the matter under this Agreement.

Article III.15

Customs Valuation Agreement

The Customs Valuation Agreement and any successor Agreement shall govern the customs valuation rules applied by the Parties to their reciprocal trade. Section 4:

Bilateral Emergency Actions (Tariff Actions)²

1. Subject to paragraphs 2 through 5 and during the transition period only, if, as a result of the reduction or elimination of a duty provided for in this Agreement, a textile or apparel good originating in the territory of a Party, or a good that has been integrated into the WTO and entered under a tariff preference level set out in Appendix 6.1, is being imported into the territory of the other Party in such increased quantities, in absolute terms or relative to the domestic market for that good, and under such conditions as to cause serious damage, or actual threat thereof, to a domestic industry producing a like or directly competitive good, the importing Party may, to the minimum extent necessary to remedy the damage or actual threat thereof:

(a) suspend the further reduction of any rate of duty provided for under this Agreement on the good; or

(b) increase the rate of duty on the good to a level not to exceed the lesser of:

(i) the most-favoured-nation (MFN) applied rate of duty in effect at the time the action is taken; and

(ii) the MFN applied rate of duty in effect on the day immediately preceding the date of entry into force of this Agreement.

2. In determining serious damage, or actual threat thereof, the Party:

(a) shall examine the effect of increased quantities of those imports on the state of the particular industry, as reflected in changes in such relevant economic variables as output, productivity, utilization of capacity, inventories, market share, exports, wages, employment, domestic prices, profits and investment, none of which, either alone or combined with other factors is necessarily decisive; and

(b) shall not consider changes in technology or consumer preference as factors supporting a determination of serious damage or actual threat thereof.

3. A Party shall deliver without delay to the other Party written notice of its intent to take such action, and on request shall enter into consultations with that Party.

4. The following conditions and limitations apply to any emergency action taken under this Section:

effects or equivalent to the value of the additional duties expected to result from the action. Such concessions shall be limited to the textile and apparel goods set out in Appendix III.1.1.1, unless the Parties otherwise agree. If the Parties are unable to agree on compensation, the exporting Party may take tariff action having trade effects substantially equivalent to the action taken under this Section against any goods imported from the other Party. The Party taking the tariff action shall only apply the action for the minimum period necessary to achieve the substantially equivalent effects.

Section 5:
Bilateral Emergency Actions (Quantitative Restrictions)

1. A Party may take bilateral emergency action against non-originating textile or apparel goods that have not been integrated into the WTO and which enter into the territory of the other Party under a tariff preference level (TPL) in accordance with this section and Appendix III.1.5.1.
2. If a Party demonstrates that a non-originating textile or apparel good entered under a tariff preference level set out in Appendix III.1.6.1 is being imported into its territory from the other Party in such increased quantities, in absolute terms or relative to the domestic market for that good, under such conditions as to cause serious damage, or actual threat thereof, to a domestic industry producing a like or directly competitive good in the importing Party, the importing Party may request consultations with the other Party with a view to eliminating the serious damage or actual threat thereof.
3. The Party requesting consultations shall include in its request for consultations the reasons that it considers demonstrate that such serious damage or actual threat thereof to its domestic industry is resulting from the imports of the other Party, including the latest data concerning such damage or threat thereof.
4. In determining serious damage, or actual threat thereof, the Party shall apply Section 4(2).
5. The Parties shall begin consultations within 60 days of the request for consultations and shall endeavour to agree on a mutually satisfactory level of restraint on exports of the particular good within 90 days of the request, unless the Parties agree to extend this period. The request for consultations shall be accompanied by specific and relevant factual information, as up to date as possible, particularly in regard to the factors stated in paragraphs 2, 3 and 4 of this section. The information shall be related, as closely as possible, to identifiable segments of production and to the reference period set out in paragraph 7. The Party taking the action shall also indicate the specific level at which imports of the product in question are proposed to be restrained; such level shall not be lower than the level referred to in paragraph 7. In reaching a mutually satisfactory level of export restraint, the Parties shall:
 - (a) consider the situation in the market in the importing Party;
 - (b) consider the history of trade in textile and apparel goods between the Parties, including previous levels of trade; and
 - (c) seek to ensure that the textile and apparel goods imported from the territory of the exporting Party are accorded equitable treatment as compared with treatment accorded like textile and apparel goods from non-Party suppliers.³

6. If the Parties do not agree on a mutually satisfactory level of export restraint, the Party requesting consultations may impose annual quantitative restrictions on imports of the good from the territory of the other Party, subject to paragraphs 7 through 13.

7. Any quantitative restriction imposed under paragraph 6 shall be no less than the sum of:
(a) the quantity of the good imported into the territory of the Party requesting consultations from the other Party, as reported in general import statistics of the importing Party, during the first 12 of the most recent 14 months preceding the month in which the request for consultations was made; and
(b) 20 per cent of such quantity.

8. The period of any quantitative restriction imposed under paragraph 6 for the first year shall begin on the day after the date on which the request for consultations was made and terminate at the end of the calendar year in which the quantitative restriction is imposed. Any quantitative restriction that is imposed for a period of less than 12 months shall be prorated to correspond to the time remaining in the calendar year in which the restriction is imposed, and the prorated amount may be adjusted in accordance with the flexibility provisions set out in Appendix III.1.5.1.

9. For each successive calendar year that the quantitative restriction imposed under paragraph 6 remains in effect, the Party imposing it shall:
(a) increase it by six per cent; and
(b) accelerate the growth rate for quantitative restrictions on cotton, man-made fibre and non-cotton vegetable fibre textile and apparel goods as required by the WTO Agreement on Textiles and Clothing;
and the flexibility provisions set out in Appendix III.1.5.1 apply.

10. A quantitative restriction imposed under paragraph 6 before July 1 in any calendar year may remain in effect for the remainder of that year, plus two additional calendar years. Such a restriction imposed on or after July 1 in any calendar year may remain in effect for the remainder of that year, plus three additional calendar years. No such restriction may remain in effect beyond the transition period or one year following the full integration into the WTO.

11. Neither Party may take an emergency action under this section with respect to any particular textile or apparel non-originating good against which a quantitative restriction is in effect.

12. Neither Party may adopt or maintain a quantitative restriction under this section on a particular textile or apparel good that otherwise would be permitted under this Annex, if that Party is required to eliminate such measure under the WTO Agreement on Textiles and Clothing.

13. Neither Party may take a bilateral emergency action after the expiration of the transition period with respect to cases of serious damage, or actual threat thereof, to domestic industry arising from the operation of this Agreement.

Section 6:
Special Provisions

Appendix III.1.6.1 sets out special provisions applicable to certain textile and apparel goods.

Section 7: Definitions

For purposes of this Annex:

average yarn number, as applied to woven fabrics of cotton or man-made fibres, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric, with all clipped yarn being measured as if continuous and with the count being taken of the total single yarns in the fabric including the single yarns in any multiple (folded) or cabled yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any of the following formulas can be used to determine the average yarn number:

$$N = \frac{BYT}{1,000}, \quad \frac{100T}{Z'}, \quad \frac{BT}{Z} \quad \text{or} \quad \frac{ST}{10}$$

when:

N is the average yarn number,

B is the breadth (width) of the fabric in centimetres,

Y is the metres (linear) of the fabric per kilogram,

T is the total single yarns per square centimetre,

S is the square metres of fabric per kilogram,

Z is the grams per linear metre of fabric, and

Z' is the grams per square metre of fabric.

Fractions in the resulting "average yarn number" shall be disregarded;

exporting Party means the Party from whose territory a textile or apparel good is exported;

flexibility provisions means the provisions set out in Appendix III.1.5.1;

importing Party means the Party into whose territory a textile or apparel good is imported;

integrated into the WTO means subject to the obligations of the WTO Agreement;

product category means a grouping of textile or apparel goods defined in the Correlation:

Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States, 1995 (or successor publication), published by the United States Department of Commerce, International Trade Administration, Office of Textiles and Apparel, Trade and Data Division, Washington, D.C.;

specific limit means a level of exports for a particular textile or apparel good that may be adjusted in accordance with Appendix III.1.5.1;

square metres equivalent (SME) means that unit of measurement that results from the application of the conversion factors set out in Appendix III.1.6.2 to a primary unit of measure such as unit, dozen or kilogram;

tariff preference level (TPL) means a mechanism that provides for the application customs duty at a preferential rate to imports of a particular good up to a specified quantity, and at a different rate to imports of that good that exceed that quantity; transition period means the seven-year period beginning on the date of entry into force of this Agreement;

wool fabric means:

(a) fabric in chief weight of wool;

(b) woven fabric in chief weight of man-made fibres containing 36 per cent or more by weight of wool; and

(c) knitted or crocheted fabric in chief weight of man-made fibres containing 23 per cent or more by weight of wool; and

WTO Agreement on Textiles and Clothing means the Agreement on Textiles and Clothing which is part of the WTO Agreement.

Continue on to Appendix to Annex III.1

Notes:

Article III.16:

[7] An operation or process that is part of the production or assembly of an unfinished good into a finished good is not a repair or alteration of the unfinished good; a component of a good is a good that may be subject to repair or alteration.

Annex III.1

[1] The general provisions of Chapter II (General Definitions), Chapter III (National Treatment and Market Access of Goods), Chapter IV (Rules of Origin) and Chapter VI (Emergency Action) are subject to the specific rules for textiles and apparel goods set out in this Annex.

[2] For purposes of Sections 4 and 5:

(a) "increased quantities" is intended to be interpreted more broadly than the standard provided in Article VI.2.1 (Bilateral Actions), which considers imports "in absolute terms" only. For purposes of these sections, "increased quantities" is intended to be interpreted in the same manner as this standard is interpreted in the WTO Agreement on Textiles and Clothing; and
(b) "serious damage" is intended as a less stringent standard than "serious injury" under Article VI.2.1 (Bilateral Actions). The "serious damage" standard is drawn from the WTO Agreement on Textiles and Clothing. The factors to be considered in determining whether the standard has been met are set out in Section 4.2 and are also drawn from that Agreement. "Serious damage" is to be interpreted in the light of its meaning in that Agreement.

[3] In paragraph 5(c), the term "equitable treatment" is intended to have the same meaning as it has in customary practice under the WTO Agreement on Textiles and Clothing.

Flexibility Provisions

Adjustments to annual specific limits (SLs), may be made as follows:

(a) the exporting Party may increase the SL for a calendar year by no more than six per cent ("swing").

(b) in addition to any increase of its SL under subparagraph (a), the exporting Party may increase its unadjusted SL for that year by no more than 11 per cent by allocating to such SL for that calendar year (the "receiving year") an unused portion ("shortfall") of the corresponding SL for the previous calendar year ("carryover") or a portion of the corresponding SL for the following calendar year ("carryforward"), as follows:

(i) subject to subparagraph (iii), the exporting Party may utilize carryover, as available, up to 11 per cent of the unadjusted SL for the receiving year;

(ii) the exporting Party may utilize carryforward charged against the corresponding SL for the following calendar year, up to six per cent of the unadjusted SL for the receiving year;

(iii) the combination of the exporting Party's carryover and carryforward shall not exceed 11 per cent of the unadjusted SL in the receiving year; and

(iv) carryover may be utilized only following confirmation by the importing Party that sufficient shortfall exists. If the importing Party does not consider that sufficient shortfall exists, it shall promptly provide data to the exporting Party to support that view. Where substantial statistical differences exist between the import and export data on which the shortfall is computed, the Parties shall seek to resolve these differences promptly.

or obtained outside the free trade area, and that meet other applicable conditions for preferred tariff treatment under this Agreement. The SME shall be determined in accordance with the conversion factors set out in Appendix III.1.6.2.

5. In order that goods may be traded under the TPL regime, prior to the entry into force of this Agreement, the Parties shall:

(a) Agree on and establish the documentation or certification requirements for the importation of the goods for which the benefit of TPL will be claimed; and

(b) Notify each other of the method of verification, by the administration of the Party from which the goods are exported, of the eligibility of the goods for TPL status.

Review and Consultations

6. (a) Trade in the goods referred to in paragraphs 1, 2 and 3 shall be monitored by the Parties on request of any Party wishing to adjust any annual TPL, based on the ability to obtain supplies of particular fibres, yarns and fabrics, as appropriate, that can be used to produce originating goods. The Parties shall consult with a view to adjusting such level. Any adjustment in the TPL requires the mutual consent of the Parties.

(b) The Parties shall review the rules of origin applicable to textiles and apparel goods, within four years of the date of entry into force of this Agreement to take into account the effect of increasing global competition on textile and apparel goods and the implications of any integration of these goods into the WTO. In this review, the Parties will take into account changed circumstances such as technological advances, changes in market conditions and developments with respect to international trade in textiles and apparel.

Chapter IV: Rules of Origin

Article IV.1 Originating Goods

Except as otherwise provided in this Chapter, a good shall originate in the territory of a Party where:

- (a) the good is wholly obtained or produced entirely in the territory of one or both of the Parties, as defined in Article IV.15;
- (b) each of the non-originating materials used in the production of the good undergoes an applicable change in tariff classification as set forth in Annex IV.1 (Specific Rules of Origin) as a result of production occurring entirely in the territory of one or both of the Parties, or the good otherwise satisfies the applicable requirements of that Annex where no change in tariff classification is required, and the good satisfies all other applicable requirements of this Chapter;
- (c) the good is produced entirely in the territory of one or both of the Parties exclusively from originating materials; or
- (d) except for a good of Chapter 39 or Chapter 50 through 63 or except as provided in Annex IV.1 (Specific Rules of Origin), the good is produced entirely in the territory of one or both of the Parties but one or more of the non-originating materials used in the production of the good cannot undergo a change in tariff classification because both the good and the non-originating materials are classified in the same subheading, or heading that is not further subdivided into subheadings, provided that the regional value-content of the good, determined in accordance with Article IV.2, is not lower than 35 per cent when the transaction value method is used, or 25 per cent when the net cost method is used, and the good meets the other applicable requirements of this Chapter.

Article IV.2 Regional Value-content

1. Except as provided in paragraph 5, each Party shall provide that the regional value content of a good shall be calculated, at the choice of the exporter or producer of the good, on the basis of either the transaction value method set out in paragraph 2 or, for an automotive good of subheading 8407.31 through 8407.34 or heading 87.01 through 87.08, the net cost method set out in paragraph 3.

2. Each Party shall provide that an exporter or producer may calculate the regional value content of a good on the basis of the following transaction value method:

$$RVC = \frac{TV - VNM}{TV} \times 100$$

where:

RVC is the regional value content, expressed as a percentage;

TV is the transaction value of the good, adjusted to an F.O.B. basis; and

VNM is the value of non-originating materials used by the producer in the production of the good, in accordance with paragraph 6 of this Article.

3. Each Party shall provide that an exporter or a producer may calculate the regional value content of an automotive good of subheading 8407.31 through 8407.34 or heading 87.01 through 87.08 on the basis of the following net cost method:

$$RVC = \frac{NC - VNM}{NC} \times 100$$

where:

RVC is the regional value content, expressed as a percentage;

NC is the net cost of the good; and

VNM is the value of non-originating materials used by the producer in the production of the good, in accordance with paragraph 6 of this Article.

4. The value of non-originating materials used by the producer in the production of a good shall not, for purposes of calculating the regional value content of the good under paragraph 2 or 3, include the value of non-originating materials used to produce originating materials that are subsequently used in the production of the good. [FOOTNOTE: Article IV.2.4 applies to intermediate materials, and VNM in paragraphs 2 and 3 does not include:

(i) the value of any non-originating materials used by another producer to produce an originating material that is subsequently acquired and used in the production of the good by the producer of the good, and

(ii) the value of non-originating materials used by the producer to produce an originating intermediate material. With respect to paragraph 4, where an originating intermediate material is subsequently used by a producer with non-originating materials (whether or not produced by the producer) to produce the good, the value of such non-originating materials shall be included in the VNM of the good. END FOOTNOTE]

5. For purposes of calculating the net cost of a good under paragraph 3, the producer of the good may:

(a) calculate the total cost incurred with respect to all goods produced by that producer, subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, as well as non-allowable interest costs that are included in the total cost of all such goods, and then reasonably allocate the resulting net cost of those goods to the good;

(b) calculate the total cost incurred with respect to all goods produced by that producer, reasonably allocate the total cost to the good, and then subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the portion of the total cost allocated to the good; or

(c) reasonably allocate each cost that forms part of the total cost incurred with respect to the good so that the aggregate of these costs does not include any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, or non-allowable interest costs.

[FOOTNOTE: With respect to paragraph 5, sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs included in the value of materials used in the production of the good are not subtracted out of the net cost in the calculation under Article IV.2.3. END FOOTNOTE]

6. Except as provided in paragraph 7, the value of a material used in the production of a good shall:

(a) be the transaction value of the material determined in accordance with Article 1 of the Customs Valuation Agreement;

- (b) in the event that there is no transaction value or the transaction value of the material is unacceptable under Article 1 of the Customs Valuation Agreement, be determined in accordance with Articles 2 through 7 of the Customs Valuation Agreement;
- (c) where not covered under subparagraph (a) or (b), include freight, insurance, packing and all other costs incurred in transporting the material to the place of importation; or
- (d) in the case of a domestic transaction, be determined in accordance with the principles of the Customs Valuation Agreement in the same manner as an international transaction, with such modifications as may be required by the circumstances.

7. The value of an intermediate material shall be:

- (a) the total cost incurred with respect to all goods produced by the producer of the good that can be reasonably allocated to that intermediate material; or
- (b) the sum of all costs that comprise the total cost incurred with respect to that intermediate material that can be reasonably allocated to that intermediate material.

8. The value of an indirect material shall be based on the Generally Accepted Accounting Principles applicable in the territory of the Party in which the good is produced.

Article IV.3 Accumulation

For purposes of determining whether a good is an originating good, the production of the good in the territory of one or both of the Parties by one or more producers shall, at the choice of the exporter or producer of the good for which preferential tariff treatment is claimed, be considered to have been performed in the territory of either of the Parties by that exporter or producer, provided that:

- (a) all non-originating materials used in the production of the good undergo an applicable tariff classification change set forth in Annex IV.1 (Specific Rules of Origin), and the good satisfies any applicable regional value content requirement, entirely in the territory of one or both of the Parties; and
- (b) the good satisfies all other applicable requirements of this Chapter.

Article IV.4 De Minimis

1. Except as provided in paragraphs 2 and 3, a good shall be considered to be an originating good if the value of all non-originating materials used in the production of the good that do not undergo an applicable change in tariff classification set out in Annex IV.1 (Specific Rules of Origin) is not more than 10 per cent of the transaction value of the good, adjusted to an F.O.B. basis, provided that:

- (a) if the good is subject to a regional value-content requirement, the value of such non-originating materials shall be taken into account in calculating the regional value content of the good; and
- (b) the good satisfies all other applicable requirements of this Chapter.

2. Except as specified in a product-specific rule of origin of Annex IV.1 (Specific Rules of Origin) applicable to a good, paragraph 1 does not apply to a non-originating material used in the production of a good of Chapter 1 through 24 of the Harmonized System unless the non-

originating material is provided for in a different subheading from the good for which origin is being determined under this Article.

3. A good of Chapter 50 through 63 of the Harmonized System that is not originating because certain fibres or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in Annex IV.1 (Specific Rules of Origin), shall nonetheless be considered as originating if the total weight of all such fibres or yarns in that component is not more than 10 per cent of the total weight of that component. [FOOTNOTE: for purposes of applying paragraph 3, the identification of the component that determines the tariff classification of the good shall be based on the General Rules for the Interpretation of the Harmonized System. When the component that determines the tariff classification is a blend of 2 or more yarns or fibres, all yarns and, where applicable, fibres, in that component are to be taken into account. END FOOTNOTE]

Article IV.5

Fungible Goods and Materials

For purposes of determining whether a good is an originating good:

(a) where originating and non-originating fungible materials are used in the production of a good, the determination of whether the materials are originating need not be made through the identification of any specific fungible material, but may be determined on the basis of any of the inventory management methods set out in Annex IV.5 (Inventory Management Methods); and
(b) where originating and non-originating fungible goods are physically combined or mixed in inventory and, prior to their exportation, do not undergo any production or any other operation in the territory of the Party in which they were physically combined or mixed in inventory, other than unloading, reloading, or any other operation necessary to preserve the goods in good condition or to transport the goods for exportation to the other Party's territory, the determination may be made on the basis of any of the inventory management methods set out in Annex IV.5 (Inventory Management Methods).

Article IV.6

Sets or Assortments of Goods

1. Except as provided in Annex IV.1 (Specific Rules of Origin), a set or assortment as defined in Rule 3 of the General Rules for the Interpretation of the Harmonized System, shall be considered as originating, provided that:

(a) all the component products, including packaging materials and containers, are originating; or
(b) where the set or assortment contains non-originating component products, including packaging materials and containers:
(i) at least one of the component products, or all the packaging materials and containers for the set, is originating; and
(ii) the regional value content of the set or assortment is not less than 50 per cent under the transaction value method.

2. For purposes of subparagraph 1(b), the value of packaging materials and containers for the set shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the set.

Article IV.7

Accessories, Spare Parts and Tools

Accessories, spare parts and tools delivered with the good that form part of the good's standard accessories, spare parts or tools, shall be considered as originating if the good originates and shall be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in Annex IV.1 (Specific Rules of Origin), provided that:

- (a) the accessories, spare parts and tools are not invoiced separately from the good, whether or not each is listed or detailed on the invoice;
- (b) the quantities and value of the accessories, spare parts or tools are customary for the good; and
- (c) if the good is subject to a regional value content requirement, the value of the accessories, spare parts or tools shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

Article IV.8

Indirect Materials

An indirect material shall be considered as originating without regard to where it is produced.

Article IV.9

Packaging Materials and Containers for Retail Sale

Packaging materials and containers in which a good is packaged for retail sale shall, if classified with the good, be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in Annex IV.1 (Specific Rules of Origin) and, if the good is subject to a regional value content requirement, the value of such packaging materials and containers shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

Article IV.10

Packing Materials and Containers for Shipment

Packing materials and containers in which a good is packed for shipment shall be disregarded in determining whether:

- (a) the non-originating materials used in the production of the good undergo an applicable change in tariff classification set out in Annex IV.1 (Specific Rules of Origin); and
- (b) the good satisfies a regional value-content requirement.

Article IV.11

Transshipment

A good shall not be considered to be an originating good by reason of having undergone production that satisfies the requirements of Article IV.1 if, subsequent to that production, the good:

- (a) undergoes further production or any other operation outside the territories of the Parties, other than unloading, reloading or any other operation necessary to preserve it in good condition or to transport the good to the territory of a Party;
- (b) does not remain under customs control while outside the territories of the Parties; or
- (c) enters into trade or consumption in the territory of a non-Party.

Article IV.12

Non-Qualifying Operations

Except for sets of Article IV.6 or of Annex IV.1 (Specific Rules of Origin) or except as specified in a product-specific rule of origin of Annex IV.1 (Specific Rules of Origin) applicable to the good, a good shall not be considered to be an originating good merely by reason of :

- (a) disassembly of the good into its parts;
- (b) a change in the end use of the good;
- (c) the mere separation of one or more individual materials or components from an artificial mixture;
- (d) mere dilution with water or another substance that does not materially alter the characteristics of the good;
- (e) removal of dust or damaged parts from, oiling, or applying anti-rust paint or protective coatings to, the good;
- (f) testing or calibration, division of loose shipments, grouping into packages, or attaching identifying labels, markings or signs to the good or its packaging; or
- (g) packaging or repackaging of the good.

Article IV.13

Interpretation and Application

For purposes of this Chapter:

- (a) the basis for tariff classification in this Chapter is the Harmonized System 4
- (b) where applying Article IV.1(d), the determination of whether a heading or subheading under the Harmonized System provides for both a good and the materials that are used in the production of the good shall be made on the basis of the nomenclature of the heading or subheading and the relevant Section or Chapter Notes, in accordance with the General Rules for the Interpretation of the Harmonized System;
- (c) in applying the Customs Valuation Agreement under this Chapter:
 - (i) the principles of the Customs Valuation Agreement shall apply to domestic transactions, with such modifications as may be required by the circumstances, as would apply to international transactions;
 - (ii) the provisions of this Chapter shall take precedence over the Customs Valuation Agreement to the extent of any difference; and
 - (iii) the definitions in Article IV.15 shall take precedence over the definitions in the Customs Valuation Agreement to the extent of any difference; and
- (d) all costs referred to in this Chapter shall be recorded and maintained in accordance with the Generally Accepted Accounting Principles applicable in the territory of the Party in which the good is produced.

Article IV.14

Consultation and Modifications

1. The Parties shall consult regularly to ensure that this Chapter is administered effectively, uniformly and consistently with the spirit and objectives of this Agreement, and shall cooperate in the administration of this Chapter in accordance with Chapter V (Customs Procedures).

ANNEX IV.1

Specific Rules of Origin

(Continued)

Annex IV.5

Inventory Management Methods

Section I:

Fungible Materials

Subsection 1:

Definitions and Interpretation

For purposes of this Section:

average method means the method by which the origin of fungible materials withdrawn from materials inventory is based on the ratio, calculated under Section 4, of originating materials and non-originating materials in materials inventory;

FIFO method means the method by which the origin of fungible materials first received in materials inventory is considered to be the origin of fungible materials first withdrawn from materials inventory;

LIFO method means the method by which the origin of fungible materials last received in materials inventory is considered to be the origin of fungible materials first withdrawn from materials inventory;

materials inventory means:

(a) with respect to a producer of a good, an inventory of fungible materials that are used in the production of the good; and

(b) with respect to a person from whom the producer of the good acquired such fungible materials, an inventory from which fungible materials are sold or otherwise transferred to the producer of the good;

opening inventory means the materials inventory at the time an inventory management method is chosen; and

origin identifier means any mark that identifies fungible materials as originating materials or non-originating materials.

Subsection 2:

General

1. The inventory management methods for determining whether fungible materials referred to in Article IV.5(a) are originating materials are the following:

(a) specific identification method;

(b) FIFO method;

(c) LIFO method; and

(d) average method;

2. Where a producer of a good or a person from whom the producer acquired the materials that are used in the production of the good chooses an inventory management method referred to in paragraph 1, that method, including the averaging period chosen in the case of the averaging method, shall be used from the time the choice is made until the end of the fiscal year of the producer or person.

Subsection 3:

Specific Identification Method

1. Except as otherwise provided under paragraph 2, where the producer or person referred to in Subsection 2.2 chooses the specific identification method, the producer or person shall physically segregate, in materials inventory, originating materials that are fungible materials from non-originating materials that are fungible materials.

2. Where originating materials or non-originating materials that are fungible materials are marked with an origin identifier, the producer or person need not physically segregate those materials under paragraph 1 if the origin identifier remains visible throughout the production of the good.

Subsection 4:

Average Method

1. Where the producer or person referred to in Subsection 2.2 chooses the average method, the origin of fungible materials withdrawn from materials inventory is determined on the basis of the ratio of originating materials and non-originating materials in materials inventory that is calculated under paragraphs 2 and 3.

2. The ratio is calculated with respect to a one-month or three-month period, at the choice of the producer or person, by dividing:

(a) the sum of:

(i) the total units of originating materials or non-originating materials that are fungible materials and that were in materials inventory at the beginning of the preceding one-month or three-month period; and

(ii) the total units of originating materials or non-originating materials that are fungible materials and that were received in materials inventory during that preceding one-month or three-month period;

by:

(b) the sum of:

(i) the total units of originating materials and non-originating materials that are fungible materials and that were in materials inventory at the beginning of the preceding one-month or three-month period; and

(ii) the total units of originating materials and non-originating materials that are fungible materials and that were received in materials inventory during that preceding one-month or three-month period.

3. The ratio calculated with respect to a preceding one-month or three-month period under paragraph 2 is applied to the fungible materials remaining in materials inventory at the end of the preceding one-month or three-month period.

4. Where the good is subject to a regional value-content requirement and the regional value content of that good is calculated under the transaction value method or the net cost method, the ratio is calculated with respect to each shipment of the good by dividing:

(a) the total units of originating materials or non-originating materials that are fungible materials and that were in materials inventory prior to the shipment;

by:

(b) the total units of originating materials and non-originating materials that are fungible materials and that were in materials inventory prior to the shipment.

5. The ratio calculated with respect to a shipment of a good under paragraph 4 is applied to the fungible materials remaining in materials inventory after the shipment.

Subsection 5:

Manner of Dealing with Opening Inventory

1. Except as otherwise provided under paragraphs 2 and 3, where the producer or person referred to in Subsection 2.2 has fungible materials in opening inventory, the origin of those fungible materials is determined by:

(a) identifying, in the books of the producer or person, the latest receipts of fungible materials that add up to the amount of fungible materials in opening inventory;

(b) determining the origin of the fungible materials that make up those receipts; and
(c) considering the origin of those fungible materials to be the origin of the fungible materials in opening inventory.

2. Where the producer or person chooses the specific identification method and has, in opening inventory, originating materials or non-originating materials that are fungible materials and that are marked with an origin identifier, the origin of those fungible materials is determined on the basis of the origin identifier.

3. The producer or person may consider all fungible materials in opening inventory to be non-originating materials.

Section II: Fungible Goods

Subsection 6: Definitions and Interpretation

For purposes of this Section:

average method means the method by which the origin of fungible goods withdrawn from finished goods inventory is based on the ratio, calculated under Section 9, of originating goods and non-originating goods in finished goods inventory;

FIFO method means the method by which the origin of fungible goods first received in finished goods inventory is considered to be the origin of fungible goods first withdrawn from finished goods inventory;

finished goods inventory means an inventory from which fungible goods are sold or otherwise transferred to another person;

LIFO method means the method by which the origin of fungible goods last received in finished goods inventory is considered to be the origin of fungible goods first withdrawn from finished goods inventory;

opening inventory means the finished goods inventory at the time an inventory management method is chosen; and

origin identifier means any mark that identifies fungible goods as originating goods or non-originating goods.

Subsection 7: General

1. The inventory management methods for determining whether fungible goods referred to in Article IV.5(b) are originating goods are the following:

- (a) specific identification method;
- (b) FIFO method;
- (c) LIFO method; and
- (d) average method.

2. Where an exporter of a good or a person from whom the exporter acquired the good chooses an inventory management method referred to in paragraph 1, that method, including the

averaging period chosen in the case of the averaging method, shall be used from the time the choice is made until the end of the fiscal year of the exporter or person.

Subsection 8:

Specific Identification Method

1. Except as provided under paragraph 2, where the exporter or person referred to in Subsection 7.2 chooses the specific identification method, the exporter or person shall physically segregate, in finished goods inventory, originating goods that are fungible goods from non-originating goods that are fungible goods.

2. Where originating goods or non-originating goods that are fungible goods are marked with an origin identifier, the exporter or person need not physically segregate those goods under paragraph 1 if the origin identifier is visible on the fungible goods.

Subsection 9:

Average Method

1. Where the exporter or person referred to in Subsection 7.2 chooses the average method, the origin of each shipment of fungible goods withdrawn from finished goods inventory during a one-month or three-month period, at the choice of the exporter or person, is determined on the basis of the ratio of originating goods and non-originating goods in finished goods inventory for the preceding one-month or three-month period that is calculated by dividing:

(a) the sum of:

(i) the total units of originating goods or non-originating goods that are fungible goods and that were in finished goods inventory at the beginning of the preceding one-month or three-month period; and

(ii) the total units of originating or non-originating goods that are fungible goods and that were received in finished goods inventory during that preceding one-month or three-month period.

by:

(b) the sum of:

(i) the total units of originating goods and non-originating goods that are fungible goods and that were in finished goods inventory at the beginning of the preceding one-month or three-month period; and

(ii) the total units of originating goods and non-originating goods that are fungible goods and that were received in finished goods inventory during that preceding one-month or three-month period.

2. The ratio calculated with respect to a preceding month or three-month period under paragraph 1 is applied to the fungible goods remaining in finished goods inventory at the end of the preceding month or three-month period.

Subsection 10:

Manner of Dealing with Opening Inventory

1. Except as otherwise provided under paragraphs 2 and 3, where the exporter or person referred to in Subsection 7.2 has fungible goods in opening inventory, the origin of those fungible goods is determined by:

(a) identifying, in the books of the exporter or person, the latest receipts of fungible goods that add up to the amount of fungible goods in opening inventory;

(b) determining the origin of those fungible goods that make up those receipts; and

(c) considering the origin of those fungible goods to be the origin of the fungible goods in opening inventory.

2. Where the exporter or person chooses the specific identification method and has, in opening inventory, originating goods or non-originating goods that are fungible goods and that are marked with an origin identifier, the origin of those fungible goods is determined on the basis of the origin identifier.

3. The exporter or person may consider all fungible goods in opening inventory to be non-originating goods.

Article V.1

Certificate of Origin

1. The Parties shall establish, by the date of entry into force of this Agreement, a Certificate of Origin for the purpose of certifying that a good being exported from the territory of a Party into the territory of the other Party qualifies as an originating good, and may thereafter revise the Certificate of Origin by agreement.

2. Each Party may require that a Certificate of Origin for a good imported into its territory be completed in the language required under its law.

3. Each Party shall:

- (a) require an exporter in its territory to complete and sign a Certificate of Origin for any exportation of a good for which an importer may claim preferential tariff treatment upon importation of the good into the territory of the other Party; and
- (b) provide that where an exporter in its territory is not the producer of the good, the exporter may complete and sign a Certificate of Origin on the basis of:
 - (i) its knowledge of whether the good qualifies as an originating good;
 - (ii) its reasonable reliance on the producer's written declaration that the good qualifies as an originating good; or

6. For any originating good that is imported into the territory of a Party on or after the date of entry into force of this Agreement, each Party shall accept a Certificate of Origin that has been completed and signed prior to that date by the exporter or producer of that good.

2. Each Party shall provide that, where an importer in its territory claims preferential tariff treatment for a good imported into its territory from the territory of the other Party:

- (a) the Party may deny preferential tariff treatment to the good if the importer fails to comply with any requirement under this Chapter; and

3. Each Party shall provide that, where a good would have qualified as an originating good when it was imported into the territory of that Party but no claim for preferential tariff treatment was made at that time, the importer of the good may, no later than 4 years after the date on which the good was imported, apply for a refund of any excess duties paid as the result of the good not having been accorded preferential tariff treatment, on presentation of:

- (a) a written declaration that the good qualified as an originating good at the time of importation;

that it may require that the invoice accompanying the importation include a statement certifying that the good qualifies as an originating good;

(b) a non-commercial importation of a good whose value does not exceed US\$1,000 or its equivalent amount in the Party's currency, or such higher amount as it may establish; or

Article V.4

Obligations Regarding Exportations

2. Each Party:

(a) shall provide that a false certification by an exporter or a producer in its territory that a good to be exported to the territory of the other Party qualifies as an originating good shall have the same legal consequences, with appropriate modifications, as would apply to an importer in its territory for a contravention of its customs laws and regulations regarding the making of a false statement or representation; and

(b) may apply such measures as the circumstances may warrant where an exporter or a producer in its territory fails to comply with any requirement of this Chapter.

- (b) visits to the premises of an exporter or a producer in the territory of the other Party to review the records referred to in Article V.5(a) and observe the facilities used in the production of the good; or
- (c) such other procedures as the Parties may agree.

2. An exporter or producer who receives a questionnaire pursuant to paragraph 1(a) shall be given not less than 30 days from the date of receipt to provide responses and return the form. During that period, the exporter or producer may submit a written request to the importing Party, asking for a single extension of this deadline for a period not to exceed an additional 30 days.

3. Where an exporter or producer fails to return a duly completed questionnaire within the above-mentioned period or extension, the importing Party may deny preferential tariff treatment to the good in question.

4. Prior to conducting a verification visit pursuant to Paragraph (1)(b), a Party shall, through its customs administration:

- (a) deliver a written notification of its intention to conduct the visit to:
 - (i) the exporter or producer whose premises are to be visited;
 - (ii) the customs administration of the other Party at least 5 working days prior to notifying the exporter or producer referred to in 4(a)(i); and

- (c) the date and place of the proposed verification visit;

- (d) the object and scope of the proposed verification visit, including specific reference to the good that is the subject of the verification;
- (e) the names and titles of the officials performing the verification visit; and
- (f) the legal authority for the verification visit.

6. Where an exporter or producer has not given its written consent to a proposed verification visit within 30 days of notification pursuant to paragraph 4, the notifying Party may deny preferential tariff treatment to the good that would have been the subject of the visit.

7. Each Party shall provide that, where its customs administration receives notification pursuant to paragraph 4, the customs administration may, within 15 days of receipt of the notification, postpone the proposed verification visit for a period not exceeding 60 days from the date of such receipt, or for such longer period as the Parties may agree.

8. Each Party shall provide that, when the exporter or producer receives notification pursuant to paragraph 4, the exporter or producer may, on a single occasion, within 15 days of receipt of the notification, request the postponement of the proposed verification visit for a period not exceeding 60 days from the date of such receipt, or for such longer period as agreed to by the notifying Party.

9. A Party shall not deny preferential tariff treatment to a good based solely on the postponement of a verification visit pursuant to paragraph 7.

10. Each Party shall permit an exporter or a producer whose good is the subject of a verification visit by the other Party to designate 2 observers to be present during the visit, provided that:

- (a) the observers do not participate in a manner other than as observers; and
- (b) the failure of the exporter or producer to designate observers shall not result in the postponement of the visit.

11. Each Party shall, through its customs administration, where conducting a verification of origin involving a regional value content, de minimis calculation or any other provision in Chapter IV (Rules of Origin) to which Generally Accepted Accounting Principles may be relevant, apply such principles as are applicable in the territory of the Party from which the good was exported.

12. The Party conducting a verification shall, through its customs administration and within 120 days after it has received all the necessary information, provide the exporter or producer whose good is the subject of the verification with a written determination of whether the good qualifies as an originating good, including findings of fact and the legal basis for the determination. Notwithstanding the foregoing, the customs administration may extend such period for up to 90 days, after notifying the producer or exporter of the good.

13. Where verifications by a Party indicate a pattern of conduct by an exporter or a producer of false or unsupported representations that a good imported into its territory qualifies as an originating good, the Party may withhold preferential tariff treatment to identical goods exported or produced by such person until that person establishes compliance with Chapter IV (Rules of Origin).

14. Each Party shall provide that where it determines that a certain good imported into its territory does not qualify as an originating good based on a tariff classification or a value applied by the Party to one or more materials used in the production of the good, which differs from the tariff classification or value applied to the materials by the other Party, the Party's determination shall not become effective until it notifies in writing both the importer of the good and the person that completed and signed the Certificate of Origin for the good of its determination.

15. A Party shall not apply a determination made under paragraph 14 to an importation made before the effective date of the determination where: (a) the customs administration of the other Party has issued an advance ruling under Article V.9 or any other ruling on the tariff classification or on the value of such materials, or has given consistent treatment to the entry of the materials under the tariff classification or value at issue, on which a person is entitled to rely; and (b) the advance ruling, other ruling or consistent treatment was given prior to notification of the determination.

16. If a Party denies preferential tariff treatment to a good pursuant to a determination made under paragraph 14, it shall postpone the effective date of the denial for a period not exceeding 90 days where the importer of the good, or the person who completed and signed the Certificate of Origin for the good, demonstrates that it has relied in good faith to its detriment on the tariff classification or value applied to such materials by the customs administration of the other Party.

17. The Parties may also agree to develop other verification procedures under this Article.

Article V.7

Section III - Advance Rulings

Article V.9

Advance Rulings

1. Each Party shall, through its customs administration, provide for the expeditious issuance of written advance rulings, prior to the importation of a good into its territory, to an importer in its territory or an exporter or a producer in the territory of the other Party, on the basis of the facts and circumstances presented by such importer, exporter or producer of the good, concerning:

- (a) whether materials imported from a non-Party country used in the production of a good undergo an applicable change in tariff classification set out in Annex IV.1 (Specific Rules of Origin) as a result of production occurring entirely in the territory of one or both of the Parties;
- (b) whether a good satisfies a regional value-content requirement set out in Chapter IV (Rules of Origin);
- (c) for the purpose of determining whether a good satisfies a regional value-content requirement under Chapter IV (Rules of Origin), the appropriate basis or method for value to be applied by an exporter or a producer in the territory of the other Party, in accordance with the principles of the Customs Valuation Agreement, for calculating the transaction value of the good or of the materials used in production of the good;
- (d) whether a good qualifies as an originating good under Chapter IV (Rules of Origin);
- (e) whether a good that re-enters its territory after the good has been exported from its territory to the territory of the other Party for repair or alteration qualifies for duty-free treatment in accordance with Article III.6 (Goods Re-Entered after Repair or Alteration); or
- (f) such other matters as the Parties may agree.

2. Each Party shall adopt or maintain procedures for the issuance of advance rulings, including a detailed description of the information reasonably required to process an application for a ruling.

- (a) may, at any time during the course of an evaluation of an application for an advance ruling, request supplemental information from the person requesting the ruling;
- (b) shall, after it has obtained all necessary information from the person requesting an advance ruling, issue the ruling within 120 days; and
- (c) shall provide to the person requesting the ruling a full explanation of the reasons for the ruling.

4. Subject to paragraph 6, each Party shall apply an advance ruling to importations into its territory of the good for which the ruling was requested, beginning on the date of its issuance or such later date as may be specified in the ruling.

5. Each Party shall provide to any person requesting an advance ruling the same treatment, including the same interpretation and application of provisions of Chapter IV (Rules of Origin) regarding a determination of origin, as it provided to any other person to whom it issued an advance ruling, provided that the facts and circumstances are identical in all material respects.

6. The issuing Party may modify or revoke an advance ruling:

- (a) if the ruling is based on an error:
 - (i) of fact;
 - (ii) in the tariff classification of a good or a material that is the subject of the ruling;

(iii) in the application of a regional value-content requirement under Chapter IV (Rules of Origin); or

(iv) in the application of the rules for determining whether a good that re-enters its territory after the good has been exported from its territory to the territory of the other Party for repair or alteration qualifies for duty-free treatment under Article III.6 (Goods Re-Entered after Repair or Alteration);

(b) if the ruling is not in accordance with an interpretation agreed upon by the Parties regarding Chapter III (National Treatment and Market Access of Goods) or Chapter IV (Rules of Origin);

(c) if there is a change in the material facts or circumstances on which the ruling is based;

(d) to conform with a modification of Chapter III (National Treatment and Market Access of Goods), Chapter IV (Rules of Origin), this Chapter or any Uniform Regulations; or

7. Each Party shall provide that any modification or revocation of an advance ruling shall be effective on the date on which the modification or revocation is issued, or on such later date as may be specified therein, and shall not be applied to importations of a good that have occurred prior to that date, unless the person to whom the advance ruling was issued has not acted in accordance with its terms and conditions.

8. Notwithstanding paragraph 7, the issuing Party shall postpone the effective date of such modification or revocation for a period not exceeding 90 days where the person to whom the advance ruling was issued demonstrates that it has relied in good faith to its detriment on that ruling.

9. Each Party shall provide that where its customs administration examines the regional value content of a good for which it has issued an advance ruling pursuant to subparagraph 1(b), (c), (d) and (e), it shall evaluate whether:

(a) the exporter or producer has complied with the terms and conditions of the advance ruling;

(b) the exporter's or producer's operations are consistent with the material facts and circumstances on which the advance ruling is based; and

(c) the supporting data and computations used in applying the basis or method for calculating value or allocating cost were correct in all material respects.

10. Each Party shall provide that where its customs administration determines that any requirement in paragraph 9 has not been satisfied, it may modify or revoke the advance ruling as the circumstances may warrant.

11. Each Party shall provide that, where the person to whom an advance ruling was issued demonstrates that it used reasonable care and acted in good faith in presenting the facts and circumstances on which the ruling was based, and where the customs administration of a Party determines that the ruling was based on incorrect information, the person to whom the ruling was issued shall not be subject to penalties.

12. Each Party shall provide that where it issues an advance ruling to a person that has misrepresented or omitted material facts or circumstances on which the ruling is based, or has failed to act in accordance with the terms and conditions of the ruling, the Party may apply such measures as may be warranted by the circumstances in accordance with its laws.

13. The Parties shall provide that an advance ruling will remain in effect and will be honoured if there is no change in the material facts or circumstances on which it is based.

14. Each Party may provide that, where application for an advance ruling is made to its customs administration that involves an issue that is the subject of:

- (a) a verification of origin;
- (b) a review by or appeal to the customs administration; or

1. An emergency action proceeding may be instituted by a petition or complaint by entities specified in domestic law. The entity filing the petition or complaint shall demonstrate that it is representative of the domestic industry producing a good like or directly competitive with the imported good.

2. A Party may institute a proceeding on its own motion or request the competent investigating authority to conduct a proceeding.

3. Except as provided in this Annex, the time periods applicable to these proceedings will be those established by the domestic law of each Party.

Contents of a Petition or Complaint

4. Where the basis for an investigation is a petition or complaint filed by an entity representative of a domestic industry, the petitioning entity shall, in its petition or complaint, provide the following information to the extent that such information is publicly available from governmental or other sources, or best estimates and the basis therefor if such information is not available:

(a) product description: the name and description of the imported good concerned, the tariff subheading under which that good is classified, its current tariff treatment and the name and description of the like or directly competitive domestic good concerned;

(b) representativeness:

(i) the names and addresses of the entities filing the petition or complaint, and the locations of the establishments in which they produce the domestic good;

(ii) the percentage of domestic production of the like or directly competitive good that such entities account for and the basis for claiming that they are representative of an industry; and

(iii) the names and locations of all other domestic establishments in which the like or directly competitive good is produced;

(c) import data: import data for each of the 5 most recent full years that form the basis of the claim that the good concerned is being imported in increased quantities, either in absolute terms or relative to domestic production as appropriate;

(d) domestic production data: data on total domestic production of the like or directly competitive good for each of the 5 most recent full years;

(e) data showing injury: quantitative and objective data indicating the nature and extent of injury to the concerned industry, such as data showing changes in the level of sales, prices, production, productivity, capacity utilization, market share, profits and losses, and employment;

(f) cause of injury: an enumeration and description of the alleged causes of the injury, or threat thereof, and a summary of the basis for the assertion that increased imports, either actual or relative to domestic production, of the imported good are causing or threatening to cause serious injury, supported by pertinent data; and

(g) criteria for inclusion: quantitative and objective data indicating the share of imports accounted for by imports from the territory of the other Party and the petitioner's views on the extent to which such imports are contributing importantly to the serious injury, or threat thereof, caused by imports of that good.

5. Petitions or complaints, except to the extent that they contain confidential business information, shall promptly be made available for public inspection on being filed.

Notice Requirement

6. On instituting an emergency action proceeding, the competent investigating authority shall publish notice of the institution of the proceeding in the official journal of the Party. The notice shall identify the petitioner or other requester, the imported good that is the subject of the proceeding and its tariff subheading, the nature and timing of the determination to be made,

the time and place of the public hearing, dates of deadlines for filing briefs, statements and other documents, the place at which the petition and any other documents filed in the course of the proceeding may be inspected, and the name, address and telephone number of the office to be contacted for more information.

7. With respect to an emergency action proceeding instituted on the basis of a petition or complaint filed by an entity asserting that it is representative of the domestic industry, the competent investigating authority shall not publish the notice required by paragraph 5 without first assessing carefully that the petition or complaint meets the requirements of paragraph 3, including representativeness.

Public Hearing

8. In the course of each proceeding, the competent investigating authority shall:

- (a) hold a public hearing, after providing reasonable notice, to allow all interested parties, and any association whose purpose is to represent the interests of consumers in the territory of the Party instituting the proceeding, to appear in person or by counsel, to present evidence and to be heard on the questions of serious injury, or threat thereof, and the appropriate remedy; and
 - (b) provide an opportunity to all interested parties and any such association appearing at the hearing to cross-question interested parties making presentations at that hearing.
- Confidential Information

9. The competent investigating authority shall adopt or maintain procedures for the treatment of confidential information, protected under domestic law, that is provided in the course of a proceeding, including a requirement that interested parties and consumer associations providing such information furnish non-confidential written summaries thereof, or where they indicate that the information cannot be summarized, the reasons why a summary cannot be provided.

Evidence of Injury and Causation

10. In conducting its proceeding the competent investigating authority shall gather, to the best of its ability, all relevant information appropriate to the determination it must make. It shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of that industry, including the rate and amount of the increase in imports of the good concerned, the share of the domestic market taken by increased imports, and changes in the level of sales, production, productivity, capacity utilization, profits and losses, and employment. In making its determination, the competent investigating authority may also consider other economic factors, such as changes in prices and inventories, and the ability of firms in the industry to generate capital.

11. The competent investigating authority shall not make an affirmative injury determination unless its investigation demonstrates, on the basis of objective evidence, the existence of a clear causal link between increased imports of the good concerned and serious injury, or threat thereof. Where factors other than increased imports are causing injury to the domestic industry at the same time, such injury shall not be attributed to increased imports.

Deliberation and Report

12. The competent investigating authority, before making an affirmative determination in an emergency action proceeding, shall allow sufficient time to gather and consider the relevant information, hold a public hearing and provide an opportunity for all interested parties and consumer associations to prepare and submit their views.

13. The competent investigating authority shall publish promptly a report, including a summary thereof in the official journal of the Party, setting out its findings and reasoned conclusions on all pertinent issues of law and fact. The report shall describe the imported good and its tariff item number, the standard applied and the finding made. The statement of reasons shall set out the basis for the determination, including a description of:

- (a) the domestic industry seriously injured or threatened with serious injury;
- (b) information supporting a finding that imports are increasing, the domestic industry is seriously injured or threatened with serious injury, and increasing imports are causing or threatening serious injury; and
- (c) if provided for by domestic law, any finding or recommendation regarding the appropriate remedy and the basis therefor.

14. In its report, the competent investigating authority shall not disclose any confidential information provided pursuant to any undertaking concerning confidential information that may have been made in the course of the proceedings.

2. In the interest of promoting improvements to, and clarifications of, the relevant provisions of the WTO Agreement the Parties recognise the desirability of:

- (a) establishing a domestic process whereby the investigating authorities can consider, in appropriate circumstances, broader issues of public interest, including the impact of antidumping duties on other sectors of the domestic economy and on competition;
- (b) providing for the possibility of imposing antidumping duties that are less than the full margin of dumping in appropriate circumstances;

4. In an investigation, each Party shall provide the other Party with information concerning the point of contact in the investigating authority for that investigation.

5. All disputes between Parties arising in respect of the application of antidumping measures by either Party shall be settled in accordance with the WTO Agreement.

PART FOUR: TRADE FACILITATION

Chapter IX: Trade Facilitation and Additional Provisions

Section I-Trade Facilitation

Article IX.1 Objectives and Principles

1. With the objectives of facilitating trade under this Agreement and cooperating in pursuing trade facilitation initiatives on a multilateral and hemispheric basis, Canada and Costa Rica agree to administer their import and export processes for goods traded under this Agreement on the basis that:
- (a) procedures be efficient to reduce costs for importers and exporters and simplified where appropriate to achieve such efficiencies;
 - (b) procedures be based on any international trade instruments or standards to which the Parties have agreed;
 - (c) entry procedures be transparent to ensure predictability for importers and exporters;
 - (d) measures to facilitate trade also support mechanisms to protect persons through effective enforcement of and compliance with national requirements;
 - (e) the personnel and procedures involved in those processes reflect high standards of integrity;
 - (f) the development of significant modifications to procedures of a Party include, in advance of implementation, consultations with the representatives of the trading community of that Party;
 - (g) procedures be based on risk assessment principles to focus compliance efforts on transactions that merit attention, thereby promoting effective use of resources and providing incentives for voluntary compliance with the obligations to importers and exporters; and
 - (h) the Parties encourage cooperation, technical assistance and the exchange of information, including information on best practices, for the purpose of promoting the application of and compliance with the trade facilitation measures agreed upon under this Agreement.

Article IX.2
Specific Obligations

1. The Parties confirm their rights and obligations under Article VIII (Fees and Formalities Connected with Importation and Exportation) and Article X (Publication and Administration of Trade Regulations) of the GATT 1994 and any successor agreements.
2. The Parties shall release goods promptly, particularly those which are unrestricted or uncontrolled. Subject to Article IX.2.3, they shall provide a basic option of:
 - (a) releasing the goods at the time of entry based on the submission of only the documentation required before the goods arrive or at the time of arrival. This shall not prevent customs from requiring the submission of more extensive documentation through post-entry accounting and verifications, as appropriate; or
 - (b) releasing the goods based on the submission, before or at the time of arrival of the goods, of all the information necessary to obtain a final accounting of the goods.
3. The Parties recognize that, for certain goods or under certain circumstances, such as goods subject to quota or to health-related or public safety requirements, releasing the goods may require the submission of more extensive information, before or at the time of arrival of the goods, to allow the authorities to examine the goods for release.
4. The Parties shall facilitate and simplify the process and procedures for the release of low-risk merchandise, and shall improve controls on the release of high-risk merchandise. For these purposes, the Parties shall base their examination and release procedures and their post-entry verification procedures on risk assessment principles, rather than examining each and every shipment offered for entry in a comprehensive manner for compliance with all import requirements. This shall not preclude the Parties from conducting quality control and compliance reviews which may require more extensive examinations.
5. The Parties shall ensure that the procedures and activities of various agencies whose requirements on the import or export of goods are maintained, either by themselves or on their behalf by customs, are coordinated to facilitate trade. In this connection, each Party shall take steps to harmonize the data requirements of such agencies with the objective of allowing importers and exporters to present all required data to only one border agency.
6. In their procedures for the clearance of express consignments, the Parties shall apply the World Customs Organization Principles on Express Consignment.
7. The Parties shall introduce or maintain simplified clearance procedures for the entry of goods which are low in value and for which the revenue associated with such imports is not considered significant by the Party maintaining such expedited procedures.
8. The Parties shall work to achieve common processes and simplification of the information necessary for the release of goods, applying, when appropriate, existing international standards. With this objective, the Parties shall establish a means of providing for the electronic exchange of information between customs administrations and the trading community for the purpose of encouraging rapid release procedures. For purposes of this Article, the Parties shall use formats based on international standards for the electronic exchange of information, and shall also take

into account the World Customs Organization Recommendations "Concerning the Use of UN/EDIFACT Rules for Electronic Data Interchange" and "Concerning the Use of Codes for the Representation of Data Elements". This shall not preclude the use of additional electronic data transmission standards.

9. The Parties, through their customs administrations, shall establish formal consultation mechanisms with their trade and business communities to promote greater cooperation and the exchange of electronic information.

10. The Parties shall issue written rulings in advance of an importation in response to a written request by an importer, exporter or its representative. Rulings shall be issued for tariff classification, applicable rate of duty, any tax applicable upon importation, or whether goods are considered to be originating goods and entitled to tariff preferences under this Agreement. The rulings shall be as detailed as the nature of the request and the details provided by the person requesting the ruling permits. When a Party determines that a request for an advance ruling is incomplete, it may request additional information, including, where appropriate, a sample of the goods or materials in question from the person requesting the ruling. The advance ruling shall be binding upon the customs administration that issued the ruling at the time the goods are actually imported provided that the facts and circumstances that were the basis for the issuance of the advance ruling remain in effect. The customs administration of a Party may modify or revoke such a ruling at any time but only after notification to the person that requested the ruling and without retroactive application. The Parties may modify or revoke such rulings without notification and with retroactive application in circumstances where inaccurate or false information has been provided.

11. The Parties shall ensure that any administrative action or official decision taken in respect of the import or export of goods is reviewable promptly by judicial, arbitral or administrative tribunals or procedures, independent of the authority issuing the decision, which has the competence to maintain, modify or reverse the determination, in accordance with the law of each Party. The Parties shall provide for an administrative level of appeal or review, independent of the official or, where applicable, the office responsible for the original action or decision, before requiring a person to seek redress at a more formal or judicial level.

12. The Parties shall promptly publish or otherwise make available, including through electronic means, all their laws, regulations, judicial decisions and administrative rulings or policies of general application relating to their requirements for imported or exported goods. They shall also make available notices of an administrative nature, such as general agency requirements and entry procedures, hours of operation and points of contacts for information enquiries.

13. Each Party shall, in accordance with their laws, treat as strictly confidential all business information that is by its nature confidential or that is provided on a confidential basis.

Article IX.3 Cooperation

1. The Parties recognize that technical cooperation is fundamental to facilitating compliance with the obligations set forth in this Agreement and for reaching a better degree of trade facilitation.

2. The Parties, through their customs administrations, agree to develop a technical cooperation program under such mutually agreed terms as the scope, timing and cost of cooperative measures, in customs-related areas such as, inter alia:

- (a) training;
- (b) risk assessment;
- (c) prevention and detection of contraband and illegal activities, in collaboration with other authorities;
- (d) implementation of the Customs Valuation Agreement;
- (e) audit and verification frameworks;
- (f) customs laboratories; and
- (g) electronic exchange of information.

3. The Parties shall cooperate in the development of effective mechanisms for communicating with the trade and business communities.

Article IX.4

Future Work Program

1. With the objective of developing further steps to facilitate trade under this Agreement, the Parties establish the following work program:

- (a) to develop the Cooperation Program referred to in Article IX.3 for the purpose of facilitating compliance with the obligations set forth in this Agreement; and
- (b) as appropriate, to identify and submit for the consideration of the Commission new measures aimed at facilitating trade between the Parties, taking as a basis the objectives and principles set forth in Article IX.1 of this Chapter, including, inter alia:
 - (i) common processes;
 - (ii) general measures to facilitate trade;
 - (iii) official controls;
 - (iv) transportation;
 - (v) the promotion and use of standards;
 - (vi) the use of automated systems and Electronic Data Interchange (EDI);
 - (vii) the availability of information;
 - (viii) customs and other official procedures concerning the means of transportation and transportation equipment, including containers;
 - (ix) official requirements for imported goods;
 - (x) simplification of the information necessary for the release of goods;
 - (xi) customs clearance of exports; (xii) transshipment of goods;
 - (xiii) goods in international transit;
 - (xiv) commercial trade practices; and
 - (xv) payment procedures.

2. The Parties may periodically review the work program referred to in this Article for the purpose of agreeing upon new cooperation actions that might be needed to promote application of the trade facilitation obligations and principles, including new measures that might be agreed upon by the Parties.

3. Through the Parties' respective customs administrations and other border-related authorities as appropriate, the Parties will review relevant international initiatives on trade facilitation, including the Compendium of Trade Facilitation Recommendations, developed by the United Nations Conference on Trade and Development and the United Nations Economic Commission for Europe, to identify areas where further joint action would facilitate trade between the Parties and promote shared multilateral objectives.

Chapter IX:

Trade Facilitation and Additional Provisions (cont.)

Section II-Additional Provisions

Article IX.5

Sanitary and Phytosanitary Measures

1. The Parties reaffirm their rights and obligations under the WTO Agreement on the Application of Sanitary and Phytosanitary Measures.

2. The Parties agree to use the WTO dispute settlement procedures for any formal disputes regarding sanitary and phytosanitary (SPS) measures.

3. Recognizing the benefits from a bilateral program of technical and institutional cooperation, a Committee on Sanitary and Phytosanitary Measures, comprising representatives of each Party who have responsibilities for sanitary and phytosanitary matters, is hereby established. This Committee would provide a regular forum for consultations and co-operation to:

- (a) enhance the effectiveness of Parties' regulations in this area in a manner which is fully consistent with, and supportive of, relevant WTO rights and obligations, with a view to improving food safety and sanitary and phytosanitary conditions; and
- (b) facilitate discussions on bilateral issues with a view to avoiding disputes between Parties.

4. The Committee may consider the following:

- (a) the design, implementation and review of technical and institutional co-operation programs;

- (d) the identification and resolution of SPS-related problems;
- (e) the recognition of pest- or disease-free areas; and
- (f) the promotion of bilateral consultation on sanitary and phytosanitary issues under discussion in multilateral and international fora.

5. The Committee will meet as required, normally on an annual basis, and report on its activities and work plans to the Coordinators.

Article IX.6

Standards including Metrology

1. The Parties affirm their rights and obligations under the WTO Agreement on Technical Barriers to Trade (TBT Agreement), part of Annex 1A of the WTO Agreement.
2. The Parties shall use the relevant dispute settlement provisions of the WTO Agreement for any formal disputes related to their rights and obligations under the WTO TBT Agreement.
3. The Parties shall develop programs for technical cooperation aimed at achieving full and effective compliance with the obligations set forth in the WTO TBT Agreement. To this end, the Parties shall encourage their competent authorities in the area of standards, including metrology, to undertake the following activities for the purpose of strengthening processes and systems in this field:
 - (a) the promotion of bilateral institutional and regulatory information exchange and technical cooperation; and
 - (b) the promotion of bilateral coordination by appropriate agencies in multilateral and international fora on standards, including metrology.
4. The Parties shall include bilateral cooperation and coordination issues related to standards, including metrology, on the agenda of the Coordinators on a regular basis.

Article IX.7

Government Procurement

1. The Parties agree to cooperate with the aim of achieving further liberalisation of public procurement markets and greater transparency in public procurement.
2. The Parties recognize that technical cooperation can contribute to achieving these aims and agree to cooperate in exploring potential approaches to such technical cooperation through existing mechanisms, particularly with respect to the application of information technology to government procurement.
3. The Parties shall, within 3 years after the entry into force of this Agreement, meet to review this Article.

Chapter X:

Temporary Entry

Article X.1

Temporary Entry

1. The Parties recognize that there is a growing importance of investment and services related to trade in goods. In accordance with their applicable laws and regulations, they shall facilitate the temporary entry of:
 - (a) nationals who are intra-company transferees (managers, executives, specialists) and business visitors;
 - (b) nationals who are providing after-sales services directly related to the exportation of goods by an exporter of that same Party into the territory of the other Party; or
 - (c) spouses or common-law partners and children of nationals described in (a) above.

2. With a view to developing and deepening their relations under this Agreement, the Parties agree that within 3 years of the date of entry into force, they will review developments related to temporary entry, and consider the need for further disciplines in this area.

3. No later than 1 year after the date of entry into force of this Agreement, the Parties shall make available explanatory material regarding the requirements for temporary entry under this Article in such a manner as to enable citizens of the other Party to become acquainted with them.

4. For the purposes of this Chapter:

after-sales services include those provided by persons repairing and servicing, supervising installers, and setting up and testing commercial or industrial (including computer software) equipment, provided the services are being performed as part of an original or extended sales or lease agreement, warranty, or service contract. "Setting up" does not include hands-on installation generally performed by construction or building trades. After-sales services also includes persons providing familiarization or training sessions to potential users; business visitors are short-term visitors who do not intend to enter the labour market of the Parties, but seek entry to engage in activities such as buying or selling of goods or services, negotiating contracts, conferring with colleagues, or attending conferences; national means a natural person who is a citizen of a Party; and temporary entry means the right to enter and remain for the period authorized.

PART FIVE: COMPETITION POLICY

Chapter XI : Competition Policy

Article XI .1 Purpose

The purposes of this Chapter are to ensure that the benefits of trade liberalization are not undermined by anticompetitive activities and to promote cooperation and coordination between the competition authorities of the Parties.

Article XI .2 General Principles

1. Each Party shall adopt or maintain measures to proscribe anticompetitive activities and shall take appropriate enforcement action pursuant to those measures, recognizing that such measures will enhance the fulfillment of the objectives of this Agreement.

2. Each Party shall ensure that the measures referred to in paragraph 1, and the enforcement actions pursuant to those measures, are applicable on a non-discriminatory basis.

3. For the purpose of this Chapter, anticompetitive activities include, but are not limited to, the following:

(a) anticompetitive agreements, anticompetitive concerted practices or anticompetitive arrangements by competitors to fix prices, make rigged bids (collusive tenders), establish

output restrictions or quotas, or share or divide markets by allocating customers, suppliers, territories or lines of commerce;

(b) anticompetitive practices by an enterprise or group of enterprises that has market power in a relevant market or group of markets; and

(c) mergers or acquisitions with substantial anticompetitive effects;

unless such activities are excluded, directly or indirectly, from the coverage of a Party's own laws or authorized in accordance with those laws. All such exclusions and authorizations shall be transparent and should be periodically assessed by each Party to determine whether they are necessary to achieve their overriding policy objectives.

4. Each Party shall ensure that:

(a) the measures it adopts or maintains to proscribe anticompetitive activities, which implement the obligations set out in this Chapter, whether occurring before or after the coming into force of the Agreement, are published or otherwise publicly available; and

(b) any modifications to any such measures occurring after the coming into force of this Agreement are notified to the other Party within 60 days, with advance notification to be provided where possible.

5. Each Party shall establish or maintain an impartial competition authority that is:

(a) authorized to advocate pro-competitive solutions in the design, development and implementation of government policy and legislation; and

(b) independent from political interference in carrying out enforcement actions and advocacy activities.

6. Each Party shall ensure that its judicial and quasi-judicial proceedings to address anticompetitive activities are fair and equitable, and that in such proceedings, persons that are directly affected:

(a) are provided with written notice when a proceeding is initiated;

(b) are afforded an opportunity, prior to any final action in the proceeding, to have access to relevant information, to be represented, to make submissions, including any comments on the submissions of other persons, and to identify and protect confidential information; and

(c) are provided with a written decision on the merits of the case.

7. Each Party shall ensure that, where there are any judicial or quasi-judicial proceedings to address anticompetitive activities, an independent domestic judicial or quasi-judicial appeal or review process is available to persons subject to any final decision arising out of those proceedings.

Article XI.3

Cooperation

1. The Parties recognize the importance of cooperation and coordination of enforcement actions including notification, consultation and exchange of information.

2. Subject to Article XI.4, and unless providing notice would harm its important interests, each Party shall notify the other Party with respect to its enforcement actions that may affect that other Party's important interests, and shall give full and sympathetic consideration to possible ways of fulfilling its enforcement needs without harming those interests.

3. For the purpose of this Chapter, enforcement actions that may affect the important interests of the other Party and therefore will ordinarily require notification include those that:

- (a) are relevant to enforcement actions of the other Party;
- (b) involve anticompetitive activities, other than mergers or acquisitions, carried out in whole or in part in the territory of the other Party and that may be significant for that Party;
- (c) involve mergers or acquisitions in which one or more of the enterprises involved in the transaction, or an enterprise controlling one or more of the enterprises to the transaction, is incorporated or organized under the laws of the other Party or one of its provinces;
- (d) involve remedies that expressly require or prohibit conduct in the territory of the other Party or are otherwise directed at conduct in that territory; or
- (e) involve the seeking of information located in the territory of the other Party, whether by personal visit by officials of a Party or otherwise, except with respect to telephone contacts with a person in the territory of the other Party where that person is not the subject of enforcement action and the contact seeks only an oral response on a voluntary basis.

4. Notification will ordinarily be given as soon as the competition authority of a Party becomes aware that the notifiable circumstances pursuant to paragraphs 2 and 3 are present.

5. In accordance with their laws, the Parties may enter into additional cooperation and mutual legal assistance agreements, arrangements, or both in order to further the objectives of this Chapter.

Article XI .4 Confidentiality

Nothing in this Chapter shall require the provision of information by a Party or its competition authority contrary to its laws. The Parties shall, to the fullest extent possible, maintain the confidentiality of any information communicated to it in confidence by the other Party. Any information communicated shall only be used for the purpose of the enforcement action for which it was communicated.

Article XI .5 Technical Assistance

In order to achieve the objectives of this Chapter, the Parties agree that it is in their common interest to work together in technical assistance initiatives related to competition policy, measures to proscribe anticompetitive activities and enforcement actions.

Article XI .6 Consultations

1. The Parties shall consult either at least once every two years, or pursuant to Article XIII.4 (Cooperation) on the written request of a Party, to consider matters regarding the operation, implementation, application or interpretation of this Chapter and to review the Parties' measures to proscribe anticompetitive activities and the effectiveness of enforcement actions. Each Party shall designate one or more officials, including an official from each competition

authority, to be responsible for ensuring that consultations, when required, occur in a timely manner.

2. If the Parties do not arrive at a mutually satisfactory resolution of a matter arising from the written request of a Party made under paragraph 1, they shall refer the matter to the Commission for consideration under Article XIII.1.2(c) (The Free Trade Commission).

3. Except as provided in paragraph 1, neither Party may have recourse to dispute settlement under this Agreement or to any kind of arbitration for any matter arising under this Chapter.

Article XI .7

Definitions

For purposes of this Chapter, these terms shall have the following definitions: anticompetitive activities means any conduct or transaction that may be subject to penalties or other relief under:

Article XIII.16

Implementation of Recommendations and Rulings

1. Prompt compliance with recommendations or rulings of the panel is essential in order to ensure effective resolution of disputes to the benefit of both Parties.

2. Within 30 days after the date on which a panel has issued its final report, the Party complained against shall notify the other Party of its intentions in respect of implementation of the recommendations and rulings of the panel. If it is impracticable to comply immediately with the recommendations and rulings, the Party complained against shall have a reasonable period of time in which to do so. The reasonable period of time shall be:

(a) a period of time mutually agreed by the Parties within 45 days after the date the final report is issued by the panel; or

(b) a period of time determined through binding arbitration within 90 days after the final report is issued. [FOOTNOTE: If the Parties cannot agree on an arbitrator within 10 days after referring the matter to arbitration, the arbitrator shall be chosen by lot from among the panelists. END FOOTNOTE] In such arbitration a guideline for the arbitrator should be that the reasonable period of time to implement a panel report should not exceed 15 months from the date of the issuance of a final report. However, that time may be shorter or longer depending upon the particular circumstances.

3. During the reasonable period of time, each Party shall accord sympathetic consideration to any request from the other Party for consultations with a view to reaching a mutually satisfactory solution regarding the implementation of the recommendations or rulings of the panel.

4.

(a) The issue of implementation of the recommendations or rulings may be raised by the complaining Party at any time following the issuance of the final report.

(b) The Party complained against shall report on the status of its implementation of the recommendations or the rulings at the request of the other Party 2 , beginning 6 months after the date the final report is issued, until the Parties have mutually agreed that the issue is resolved or until a panel finds pursuant to Article XIII.17 that the Party complained against has complied. [FOOTNOTE: The Party complained against shall provide a detailed written status report concerning its progress in the implementation of the recommendations or rulings.]

(c)

(i) Upon compliance with the recommendations or rulings of the panel, the Party complained against shall provide the other Party a written notification on compliance.

(ii) If the Party complained against has not provided a notification under paragraph (c)(i) by the date that is 20 days before the date of expiry of the reasonable period of time, then not later than that date the Party complained against shall provide to the other Party a written notification on compliance, including the measures that it has taken, or the measures that it expects to have taken by the expiry of the reasonable period of time. Where the notification refers to measures that the Party complained against expects to have taken, the Party complained against shall provide to the other Party a supplementary written notification no later than the expiry of the reasonable period of time, stating that it has, or has not, taken such measures, and indicating any changes to them.

(iii) Each notification under this subparagraph shall include a detailed description as well as the text of the relevant measures the Party complained against has taken. The notification requirement of this subparagraph shall not be construed to reduce the reasonable period of time establish pursuant to paragraph 2 of this Article.

Article XIII.17

Determination of Compliance

1. Where there is disagreement between the complaining Party and the Party complained against as to the existence or consistency with this Agreement of measures taken to comply with the recommendations or rulings of a panel, such disagreement shall be resolved through recourse to the dispute settlement procedures provided for in this Article.

2. The complaining Party may request the establishment of a compliance panel referred to in paragraph 6 of this Article at any time after: [FOOTNOTE: A compliance panel may also be established pursuant to paragraph 9 of Article XIII.18.]

(i) the Party complained against states that it does not need a reasonable period of time for compliance pursuant to paragraph 2 of Article XIII.16;

(ii) the Party complained against has submitted a notification pursuant to paragraph 4(c) of Article XIII.16 that it has complied with the recommendations or rulings of the panel; or

(iii) 10 days before the date of expiry of the reasonable period of time; whichever is the earlier. Such request shall be made in writing.

3. While consultations between the Party complained against and the complaining Party are desirable, they are not required prior to a request for a compliance panel under paragraph 2.

4. When requesting the establishment of a compliance panel, the complaining Party shall identify the specific measures at issue and provide a brief summary of the legal basis of the complaint, sufficient to present the problem clearly. Unless the Parties agree on special terms of reference within 5 days from the establishment of the compliance panel, standard terms of reference in accordance with Article XIII.12 shall apply to the compliance panel.

5. The compliance panel shall be established on the date of the delivery of the request to establish such a panel. 6. The compliance panel shall consist of the members of the original panel. If any member of the original panel is not available, a new member shall be appointed in accordance with the procedure established under Article XIII.11.1(b).

7. The compliance panel shall provide its report to the Parties within 90 days of the date of its establishment.

8. The complaining Party shall not suspend concessions or other obligations under paragraph 9 of this Article until the compliance panel has provided its report to the Parties and the complaining Party has notified the Party complained against which particular concessions or obligations the Party intends to suspend.

9. If the compliance panel report finds that the Party complained against has failed to bring the measure found to be inconsistent with this Agreement into compliance therewith or otherwise comply with the recommendations or rulings of the panel in the dispute within the reasonable period of time, then:

(a) the Party complained against shall not be entitled to any further period of time for implementation; and

(b) after the compliance panel report has been provided to the Parties, the complaining Party may suspend the application to the Party complained against of concessions or other obligations under this Agreement pursuant to Article XIII.18.

10. The compliance panel shall establish its own working procedures. The provisions of Articles XIII.4, XIII.13, XIII.14, XIII.15.2, XIII.15.3, and XIII.16.1 shall apply to compliance panel proceedings except to the extent that:

- (a) such provisions are incompatible with the time frame provided in this Article; or
- (b) this Article provides more specific provisions.

Continue on to Article XIII.18 Compensation and Suspension of Concessions

Article XIII.18

Compensation and Suspension of Concessions

1. Compensation and the suspension of concessions or other obligations are temporary measures available in the event that the recommendations and rulings are not implemented within a reasonable period of time. However, neither compensation nor the suspension of concessions or other obligations is preferred to full implementation of a recommendation to bring a measure into conformity with the Agreement. Compensation is voluntary and, if granted, shall be consistent with a Party's obligations under this Agreement.

2. If:

- (a) the Party complained against does not provide notice pursuant to paragraph 2 of Article XIII.16 that it intends to implement the recommendations or rulings of the panel;
 - (b) the Party complained against does not submit within the required time period a notification pursuant to paragraph 4(c) of Article XIII.16 stating that the Party complained against has complied; or
 - (c) the compliance panel report pursuant Article XIII.17 finds that the Party complained against has failed to bring the measures found to be inconsistent with this Agreement into compliance therewith or otherwise comply with the recommendations or rulings of the panel;
- then a complaining Party may suspend the application to the Party complained against of concessions or other obligations under this Agreement. The Parties are encouraged to consult before concessions or other obligations are suspended to discuss a mutually satisfactory solution.

3. The complaining Party shall not implement any suspension of concessions or other obligations until 10 days after it has notified the Party complained against which particular concessions or obligations the Party intends to suspend.

4. The level of the suspension of concessions or other obligations shall be equivalent to the level of nullification or impairment.

5.

- (a) When the complaining Party has provided notice that it intends to suspend concessions or other obligations pursuant to paragraph 8 of Article XIII.17 or paragraph 3 of this Article and the Party complained against objects to the level of suspension proposed within 10 days after the receipt of such notice, the matter shall be referred to arbitration.
- (b) Such arbitration shall be carried out by the original panel if its members are available. In such case, the Panel will be deemed to be established by consent of both Parties on the date the Party complained against files the document with the objections referred to in subparagraph (a) above. If any member of the original panel is not available, a new member shall be appointed in

accordance with the procedure established under Article XIII.11 and the date the new Panel is complete shall be deemed to be the date the matter was referred.

(c) the arbitration shall be completed and the decision of the arbitral panel shall be provided to the Parties within 45 days after the referral of the matter. The complaining Party shall not suspend concessions or other obligations during the course of the arbitration.

6. The arbitral panel acting pursuant to paragraph 5 shall not examine the nature of the concessions or other obligations to be suspended, but shall determine whether the level of such suspension is equivalent to the level of nullification or impairment. The Parties shall accept the arbitral panel's decision as final and shall not seek a second arbitration. The decision shall constitute authorization to suspend concessions or other obligations consistent with the decision of the arbitral panel.

7. The suspension of concessions or other obligations shall be temporary and shall only be applied until such time as the measure found to be inconsistent with the Agreement has been removed, or the Party that must implement recommendations or rulings provides a solution to the nullification or impairment of benefits, or a mutually satisfactory solution is reached. The Commission shall, unless the Parties otherwise agree, include on its agenda the implementation of adopted recommendations or rulings, including those cases where compensation has been provided or concessions or other obligations have been suspended, but the recommendations to bring a measure into conformity with the Agreement have not been implemented.

8.

(a) After a Party has suspended concessions or other obligations pursuant with this Agreement, the Party complained against may request a termination of such suspension on the grounds that it has eliminated the inconsistency or the nullification or impairment of benefits under this Agreement identified in the recommendations or rulings of the panel. The Party complained against shall include with any such request a written notice describing in detail the measures it has taken, providing the text of the relevant measures. If the Parties agree that the Party complained against has eliminated the inconsistency or the nullification or impairment of benefits, the authorization to suspend concessions or other obligations shall terminate.

(b) Where there is disagreement between the Parties as to the existence or consistency with the Agreement of measures taken to comply with the recommendations or rulings of the panel in the dispute, such disagreement shall be resolved through recourse to the dispute settlement procedures provided for in Article XIII.17. If the compliance panel finds that the measures taken to comply are not inconsistent with the Agreement and comply with the recommendations or rulings of the panel in the dispute, it shall withdraw the authorization to suspend concessions or other obligations.

(c) The complaining Party shall not maintain the suspension of concessions and other obligations after the panel withdraws the authorization.

9. The dispute settlement provisions of this Agreement may be invoked in respect of measures affecting their observance taken by regional or local governments or authorities within the territory of a Party. When a compliance panel has ruled that a provision of the Agreement has not been observed, the responsible Party shall take such reasonable measures as may be available to it to ensure its observance. The provisions of this Chapter relating to compensation and suspension of concessions or other obligations apply in cases where it has not been possible to secure such observance.

The Commission shall endeavour to agree on an appropriate response as expeditiously as possible.
2. The Party in whose territory the court or administrative body is located shall submit any agreed interpretation of the Commission to the court or administrative body in accordance with the rules of that forum.
